MTF 2023 Boston Marathon Charity Bib Team Selected

The Massage Therapy Foundation (MTF) announces its 2023 Boston Marathon Team runners: Marshall Dahneke, Rulon Dahneke, David Gonzalez, Dennis Jones, and Theresa Seitz. The event will take place on Monday, April 17, 2023.

MTF is proud to be an official Partner of John Hancock in its **Marathon Non-Profit Program**. Through this program, John Hancock helps foster healthier, more equitable communities by annually donating 1,000 Boston Marathon® entries to select non-profit organizations who use them for fundraising. Last year, John Hancock Non-Profit Runners raised \$11.7M for their causes.

Team MTF is raising money and creating awareness for the Massage Therapy Foundation. Over the past ten years, this program has raised a total of \$531,074 for the Foundation. **This year, Team MTF has a goal of raising \$60,000.**

MTF Case Report Contest Webinar

Join us for a info session to learn more about MTF's case report contest! This session will be hosted by members of the Case Report Contest committee. We will review the guidelines and expectations and answer any questions you have. Practitioners, students, and educators who are thinking about submitting this year or in future years will learn more about the contest and process.

All are welcome! We look forward to meeting you and learning about your projects!

Welcome New *IJTMB* Editors

The Massage Therapy Foundation (MTF) and Registered Massage Therapists of British Columbia (RMTBC) are pleased to welcome a new editorial team for the *International Journal of Therapeutic Massage & Bodywork* (IJTMB). **Amanda Baskwill, PhD, will spearhead the journal as Executive Editor along with Luann Fortune, PhD, and Sarah Fogarty, PhD as Associate Editors.**

MTF and RMTBC celebrate three women in academia, practice, and research as they take the helm as a global editorial team.

Pictured left to right: Amanda Baskwill, Sarah Fogarty, Luann Fortune.

Casting a Broader Net: The Jacquelyn Project Blog

"Benny Vaughn (pictured right) has traveled to and treated elite performers in about every region of the world ... and been exposed to alternate technologies and therapies not widely known and available in the US. A key example is Tecar therapy, a radiofrequency energy modality that amplifies manual therapy, reduces pain and even accelerates recovery." Learn more about this modality in this month's Jacquelyn Project Blog.

[Click here to read more from Marshall Dahneke, who is running the 2023 Boston Marathon in memory and honor of his late daughter, Jacquelyn, while raising funds for MTF](#)
