

*Supporting scientific research,  
educational resources, and  
community service for the  
massage therapy profession*

Welcome Canadian Massage Therapy Association Colleagues,

We sincerely thank you for being our champions and supporting the Foundation's efforts! The Massage Therapy Foundation CMTA Resource Center contains a collection of materials designed to help you more easily raise awareness and funds to help bring vital research projects, education initiatives, and community service to the profession through MTF.

Use the CMTA Resource Center to find video links, donation forms, pre-written social posts, and printable flyers about our resources and initiatives. These materials make it easy for you to introduce us to your members so that they can discover who we are and how the MTF can benefit them and their clients.

Choose to use any portion of the material you deem appropriate. Please include content in your annual provincial meetings, on your social media, and during year-round events. Individual members can also easily customize the materials to connect with colleagues and clients.

If you have any questions, please contact Marla Gamze, MTF Development & Communication Manager at 847-905-1635 or at [mgamze@MassageTherapyFoundation.org](mailto:mgamze@MassageTherapyFoundation.org).

Thank you so much for your volunteer time in support of the Foundation. Our MTF staff, board members, volunteers, and grant recipients appreciate you!

With sincere gratitude,

Adrienne F. Asta, BA, LMT  
Massage Therapy Foundation President
